

Amendments to the Specification

Please delete the abstract previously submitted and replace it after the claims with the one on the separate sheet which accompanies this response.

Please enter the following amendments into the specification.

Page 1, line 32, please amend the following sentence:

Thus the identification of ~~subtype-selective~~ subtype-selective mAChR antagonists may be useful as therapeutics in these mAChR-mediated diseases

Please amend the paragraph on page 4:

It will be appreciated that for use in medicine the salts of formula (I) should be physiologically acceptable. Suitable physiologically acceptable salts will be apparent to those skilled in the art and include for example acid addition salts formed with inorganic acids ~~eg.~~ e.g., hydrochloric, hydrobromic, sulfuric, nitric or phosphoric acid; and organic acids eg. succinic, maleic, acetic, fumaric, citric, tartaric, benzoic, p-toluenesulfonic, methanesulfonic or naphthalenesulfonic acid. Other non-physiologically acceptable salts ~~eg.~~ e.g., oxalates, may be used, for example in the isolation of compounds of formula (I) and are included within the scope of this invention. Also included within the scope of the invention are solvates and hydrates of compounds of formula (I).

Page 11, please amend the sentence at lines 13 and 14 as follows:

Particular compounds according to the invention include those specifically exemplified and named hereinafter:— .
